| Title                                                                                                                                               | URL | Authors                                                                                                                                                                               | Host item title |
|-----------------------------------------------------------------------------------------------------------------------------------------------------|-----|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------|
| Molekularna analiza gena nim i inducibilne rezistencije na metronidazol u kliničkih izolata grupe Bacteroides fragilis                              |     | Presečki Stanko, Aleksandra                                                                                                                                                           |                 |
| Molekularna dijagnostika bakterijemije i fungemije u bolesnika s febrilnom neutropenijom i malignom bolesti                                         |     | Herceg, Davorin                                                                                                                                                                       |                 |
| Detekcija gena virulencije otoka patogenosti cag i gena dupA izolata Helicobacter pylori nakon višestruke neuspjele eradikacijske terapije          |     | Varda Brkić, Dijana                                                                                                                                                                   |                 |
| Istraživanje utjecaja mehanizma fiksacije nadomjestka na biološku stabilnost implantoprotetskog sustava – mikrobiološka analiza                     |     | Recani, Bardul                                                                                                                                                                        |                 |
| Hrvatski postupnik za dijagnostiku i terapiju infekcije Helicobacterom pylori                                                                       |     | Katičić, Miroslava; Duvnjak, Marko; Filipec Kanižaj, Tajana; Krznarić, Željko; Marušić, Marinko; Mihaljević, Silvijo; Plečko, Vanda; Pulanić, Roland; Šimunić, Miroslav; Tonkić, Ante |                 |
| First Report of NDM-1-Producing Acinetobacter guillouiae                                                                                            |     | Bošnjak, Zrinka; Plečko, Vanda; Budimir, Ana; Mareković, Ivana; Bedenić, Branka                                                                                                       |                 |
| Surveillance of surgical site infection after cholecystectomy using the hospital in Europe link for infection control through surveillance protocol |     | Bogdanić, Branko; Bošnjak, Zrinka; Budimir, Ana; Augustin, Goran; Milošević, Milan; Plečko, Vanda; Kalenić, Smilja; Fiolić, Zlatko; Vanek, Maja                                       |                 |
| Value of rapid aetiological diagnosis in optimization of antimicrobial treatment in bacterial community acquired pneumonia                          |     | Mareković, Ivana; Plečko, Vanda; Boras, Zagorka; Pavlović, Ladislav; Budimir, Ana; Bošnjak, Zrinka; Puretić, Hrvoje; Žele-Starčević, Lidija; Kalenić, Smilja                          |                 |
| Usporedna urinarna baktericidna aktivnost oralnih antibiotika prema gram-pozitivnim urinarnim patogenima                                            |     | Bedenić, Branka; Budimir, Ana; Gverić, Ana; Plečko, Vanda; Vraneš, Jasmina; Bubonja-Šonje, Marina; Kalenić, Smilja                                                                    |                 |

|                                                                                                                                   |  |                                                                                                                                                 |  |
|-----------------------------------------------------------------------------------------------------------------------------------|--|-------------------------------------------------------------------------------------------------------------------------------------------------|--|
| Uropatogena Escherichia coli : povezanost otpornosti na kinolone s prisutnošću činitelja virulencije                              |  | Barišić, Zvonimir                                                                                                                               |  |
| Molecular variants of human papilloma viruses type 16 and 6 in women with different cytological results detected by RFLP analysis |  | Žele-Starčević, Lidija; Plečko, Vanda; Skerlev, Mihael; Tripković, Vesna; Ljubojević, Suzana; Budimir, Ana; Mareković, Ivana; Lipozenčić, Jasna |  |
| Značenje molekularnih metoda u dijagnostici izvanbolničkih pneumonija uzrokovanih bakterijama                                     |  | Mareković, Ivana                                                                                                                                |  |
| Emergence of uropathogenic extended-spectrum beta lactamases-producing Escherichia coli strains in the community                  |  | Marijan, Tatjana; Vraneš, Jasmina; Bedenić, Branka; Mlinarić-Džepina, Ana; Plečko, Vanda; Kalenić, Smilja                                       |  |
