|-------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------|
| Predicting autosomal dominant polycystic kidney disease progression: review of promising Serum and urine biomarkers                                         |     | Sorić Hosman, Iva; Cvitković Roić, Andrea; Fištrek Prlić, Margareta; Vuković Brinar, Ivana; Lamot, Lovro                                                                      |                 |
| Two sides of the same coin: a complex presentation of autosomal dominant tubulointerstitial kidney diseases: a literature review and case reports           |     | Fištrek Prlić, Margareta; Huljev Frković, Sanda; Beck, Bodo; Tonković Đurišević, Ivana; Bulimbašić, Stela; Čorić, Marijana; Lamot, Lovro; Ivandić, Ema; Vuković Brinar, Ivana |                 |
| Typical course of cystinuria leading to untypical complications in pregnancy: A case report and review of literature                                        |     | Ivandić, Ema; Marić, Marjan; Elvedi-Gašparović, Vesna; Fištrek Prlić, Margareta; Lamot, Lovro; Jelaković, Bojan; Vuković Brinar, Ivana                                        |                 |
| Serum Calprotectin Is a Valid Biomarker in Distinction of Bacterial Urinary Tract Infection From Viral Respiratory Illness in Children Under 3 Years of Age |     | Lamot, Mirta; Miler, Marijana; Nikolac Gabaj, Nora; Lamot, Lovro; Milošević, Milan; Harjaček, Miroslav; Abdović, Slaven                                                       |                 |
| A Systematic Review of the (Un)known Host Immune Response Biomarkers for Predicting Recurrence of Urinary Tract Infection                                   |     | Sorić Hosman, Iva; Cvitković Roić, Andrea; Lamot, Lovro                                                                                                                       |                 |
| Single Nucleotide Polymorphism of Toll-like Receptor 4 (TLR4) is Associated with Juvenile Spondyloarthritis in Croatian Population                          |     | Perica, Marija; Vidović, Mandica; Lamot, Lovro; Tambić Bukovac, Lana; Kapitanović, Sanja; Perić, Magdalena; Barbić, Jerko; Harjaček, Miroslav                                 |                 |
| Aberrant expression of shared master-key genes contributes to the immunopathogenesis in patients with juvenile spondyloarthritis                            |     | Lamot, Lovro; Borovečki, Fran; Tambić Bukovac, Lana; Vidović, Mandica; Perica, Marija; Gotovac, Kristina; Harjaček, Miroslav                                                  |                 |
| Poremećaji genskoga izražaja u bolesnika s juvenilnim seronegativnim spondiloartropatijama                                                                  |     | Lamot, Lovro                                                                                                                                                                  |                 |
